

TANJAY HOUSE DEVELOPMENT

Below is a panoramic view from across the street with Sandra's sari-sari store dominating the scene.

Moving out the sari-sari store.

Cleaning inside the store.

Taking out low roof.

Digging fence foundation.

Fence post foundation.

Concrete hollow block fence going up.

Height of garage gate is raised, and man-gate added. Fence done.

Inside former store space, excavation is made for additional septic tank (finished on left) for T&B of new bed room shown on sketched plan on right. It is primarily for Dodo, and/or Nene & family. It will be sound proofed and air-conditioned, with fixed, high glass panels on wall adjacent to street. Floor will be same level as main house. 15 Jan 2009
