

## LOZADA FAMILY TREE

Ver 1 – 24 Jul 2011

of the Visayas

which includes members from other clans such as:

- Sibala
- Barot
- Aguilar
- etc

### INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software.

The print-out is generated from our database in what we call a Genealogical Project that aims to link as many individuals by blood and marriage in a given geographic area. Much of the Lozada data came from the website < <http://www.lozada3.net/>>, brought to our attention by Feb Sibala, originally from Tanjay, who is part of the Lozada clan. The Lozada website is very extensive and interesting due to the liberal notations on its members. Originally from Cavite, a good portion of that clan settled in Tanjay, and most were individuals already existing in our database which had been gathered over the years from other sources such as family tree data volunteered to us, interviews, research, etc. We have since exchanged some information with the Lozada webmasters.

Unique in this database is that each individual has been assigned a birth year, which is an educated guess based on date interpolation using logical assumptions of sibling spacing, and child-bearing years. Such dates are prefixed by Abt (about). Where the exact date is known, the birth years of the siblings, parents and children are adjusted accordingly.

The format of the print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a plus + prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.
4. Small superscripted numbers indicate generational level of individuals.
5. Parenthesized names after emboldened name are forebears or bloodline of individual.
6. All years shown are estimated date of births (DOB) when prefixed by Abt (about).
7. Where full names are unknown, XXX are used.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, DOBs, additional children and/or siblings, preferred deletions, etc. If sent back to <[ferngil@aol.com](mailto:ferngil@aol.com)>, we will update the database and reissue a new printout.

Last portion is the index which lists all the members and their corresponding reference number.
