## INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software.

Introduction and Index is edited in.

The print-out is generated from data we encoded into a genealogical database gathered over the years from various sources. A good portion of the data came from family connections to the extensive Teves clan.

The database is a project to trace the inter-relational linkages between major families in the Tanjay area, by bloodline and marriage.

Unique in this database is that each individual has been assigned a birth year, which is an educated guess based on date interpolation using assumptions of sibling spacing, and child-bearing years. Such dates are prefixed by “about”. Where an exact date is known, the birth years of the siblings, parents and children are adjusted accordingly. Still, many of the dates may be significantly off, since the order of births of siblings may be inaccurate, and/or incomplete.

This family tree also is viewable in various formats if you click on the website below:

<http://tinyurl.com/ya976c6t>

The format of the print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a hash # prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.
4. Small superscripted numbers indicate generational level of individuals.
5. Parenthetized names after emboldened name are forebears or bloodline of individual.
6. Where full names are unknown, XXX are used.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, DOBs, additional children and/or siblings, preferred deletions, etc. If sent back to

<[ferngil@aol.com](mailto:ferngil@aol.com)>, we will update the database and reissue a new printout.

Last portion is the index which lists all the members alphabetically, and their corresponding reference number.

This is a public service of the Tanjay Association.
